

## Henry Mbata, Tanzania

Henry Mbata is in his third year as a Clinical Medicine student at Ilula Institute of Health and Allied Sciences in Iringa Diocese. Already he participates in fieldwork from Ilula Hospital and provides care for patients through inpatient and outpatient services. His aspiration is to become a medical doctor.

Inspired by his faith, Henry's desire to pursue a career in healthcare is connected to his desire to serve God through his work, and to make a positive impact in his field as he serves others.
