

## Laura Saravia Muñoz, El Salvador

A National Youth Leader in the Salvadoran Lutheran Church, Laura has a Nursing degree and an undergraduate degree in Theology. She is the leader and community health educator in the northern microregion of El Salvador, facilitating and promoting health education for volunteer Community Health Promoters, and coordinating activities with families at the community level. Her goal is to develop participation and connect people with the program, sharing health education from first aid to natural medicine to stress management techniques and delivering supplies to people stranded by last year's hurricanes. She also takes vital signs and when needed, refers people for medical attention. Health promotion is her vocation, especially the care and promotion of health for the most vulnerable ... children.

Laura lives out her faith as a nurse and health educator, and promoter of prayer for the recovery of health in the churches and for the families that the church accompanies.

*Nominated by: Concepción Marina Ángel Vanegas*

*Health promotion is a vocation  
for Nurse Laura*

*Training and supporting volunteer health  
promoters for their community-based work*
